Significance of the programme

Van Mahotsav, which translates to "Tree Festival," is an annual tree-planting festival in India celebrated in the first week of July. It was initiated in 1950 by the Indian Ministry of Agriculture and is observed to promote the importance of tree planting and forest conservation. Van Mahotsav serves as an educational platform to raise awareness about the importance of trees and forests. It encourages citizens, especially students, to participate in tree-planting activities and learn about the environmental and socio-economic benefits of trees. The festival fosters community involvement and collective action towards environmental conservation. It encourages people from all walks of life to come together and participate in tree-planting drives, promoting a sense of responsibility and ownership towards the environment.

Brief description of the programme

The NSS unit of Gargaon College in collaboration with IQAC celebrated Van-Mahotsav Week from 1st to 7th July 2021. Students, along with faculty members, gathered in the selected locations, planted various saplings, and pledged to take care of them, fostering a sense of responsibility towards nature and contributing to a healthier ecosystem. Different varieties of saplings, including native and fruit-bearing trees were planted to enhance the local biodiversity. All the volunteers of this unit planted more than 250 saplings in various places of Sivsagar district. The initiative aimed to increase green cover, raise awareness about the importance of trees, promote environmental conservation and sustainability and Involve youth in green initiatives and instill a sense of responsibility towards nature. The Van Mahotsav organized by Gargaon College was a resounding success, demonstrating the power of community action in preserving and enhancing our natural environment.
