About the Vermicompost Production Training Program:

The NSS unit of Gargaon College conducted a training programme on vermicompost production on 9th February, 2022, at Longkak Gohain Gaon. The main objective of the programme was to empower women by teaching them how to produce vermicompost from organic waste and use it as an entrepreneurial activity. The resource person for the programme was Dr. Arundhuti Bordoloi, Subject Matter Specialist of Soil Department, Krishi Bigyan Kendra, Rohdoi, Sivasagar. She explained the benefits of vermicompost as a nutrient-rich organic fertilizer and soil conditioner. She also gave suggestion on how to maintain proper moisture, temperature, and aeration in the vermicompost pits. The programme was well received by the participants who expressed their interest in starting vermicompost production as a source of income.
