Topic: “Prospect of Entrepreneurship in Aquarium Trade”

Overview

One day workshop on “Prospect of Entrepreneurship in Aquarium Trade” in Northeast India was organized by the Department of Zoology, Gargaon College on 17th February, 2023, at 11 am. The programme was inaugurated by Dr. Rina Handique, Vice Principal, Gargaon College and Head, Department of Zoology, Gargaon College. In her inaugural speech she spoke on the emerging opportunities on self-employment in ornamental fish culture and trade. Dr. Anurag Protim Das, Assistant Professor, Department of Zoology, Gargaon College, and Resource Person of the event spoke on the Indian fisheries sector is an important sector that not only ensures food security and nutrition but also creates business opportunities, income generation, self-employment, trade and commerce as well as related activities regarding ornamental fish trade in Northeast India. He also highlighted about the congenial environment of the Northeast India and Assam for culture and propagation of ornamental fish culture. The programme was concluded by vote of thanks by Dr. Pimily Langthasa, Assistant Professor, Department of Zoology, Gargaon College. The programme was attended by 48 students of all the semesters.

Rationality of the program

Keeping aquarium fish and breeding them is an exciting activity that brings not only aesthetic pleasure, but also financial opportunities. About 600 species of ornamental fish have been reported worldwide in various aquatic environments. Indian waters have a rich diversity of ornamental fish, with over 100 indigenous varieties, besides a number of similar exotic species bred in captivity. Native ornamental fish available in rivers can be easily caught from wild resources and can be cultivated for aquariums. The country exports fish worth ₹20,000 crore every year. Of this, the share of ornamental fish is about ₹300 crore. There is still room to increase the production of ornamental fish varieties and the importance of successful business in the ornamental fish trade needs to be emphasized. So, awareness and training on aquarium fish culture and trade as prospect of entrepreneurship and employment generation.
