**World Photography Day**

## Photo Contest on the occasion of World Photography Day

Date: 19/08/2023

Organizers:

Department of Botany, Geography and Mathematics.

Background/ Significance of the day:

1. To celebrate World Photography Day.
2. To provide opportunity and to inspire amateur photographers.

About the program/Details of the Program:

Every year on August 19, World Photography Day (also known as World Photo Day) is celebrated to inspire and learn about the art, craft, science, and history of photography. The day also encourages photographers from around the globe to share a single photo that encapsulates their world.

On the occasion of World photography day 19th August 2022, an inter-departmental photography competition was organized for students, in which students actively participated. The theme was "Open" for all. A total of 245 students participated and uploaded photographs, out of which 3 students were awarded with certificate and gift. Besides this a consolation prize and certificate were also awarded to one of the students. The competition helped the students to enjoy the beauty of nature through the lens of camera.
