BRIEF DESCRIPTION OF THE PROGRAM

Online Examination Committee has decided to conduct an Online Mock Test for Higher Studies for the outgoing student. Mock tests can be used to familiarize students with the online exam platform as well as to help students identify areas where they need to improve their knowledge or skills. An Online exam needs a device capable of accessing the internet such as a computer or a smart phone. Online exams, also known as virtual exams, enable examiners to conduct exams using the internet for remote candidates. In an online examination, candidates are expected to answer the questions on their systems. Google form is widely used by teachers to conduct exams online. Google form supports multiple

question types like MCQ, subjective questions, etc. Google forms also have the facility to upload images in questions as well as answers which have made life easy for teachers and students who find it difficult to type using a phone or computer.

Some Advantages of Mock Tests Include:

1. They can help students to better understand the format and content of the actual exam.
2. They can help students to identify their strengths and weaknesses.
3. They can help students to develop good test-taking strategies.
4. They can help students to manage their time effectively during the exam.
