CULTURAL RALLY REPORT

Department of Mathematics
Session: 2023-24

OVERVIEW

During the College Week of the 2023-2024 academic year, the Mathematics department students displayed remarkable enthusiasm and active participation in a variety of events. The rally featured various thematic presentations, and one standout was the theme "Shankar Dev (Jakari Nahike Upam): Biography Novel". The Cultural Rally team's presentation on "Shankar Dev (Jakari Nahike Upam): Biography Novel" captured the essence of the revered figure's life and his impact on Assamese cultural and religious traditions. The team meticulously depicted the narrative of Shankar Dev's contributions to Assamese society, including his efforts in literature, music, dance, and drama. The team employed dramatic reenactments to bring to life significant events from Shankar Dev's story. Scenes depicting his creation of the *Ankiya Nat* (one-act plays) and the establishment of *Sattras* (Vaishnavite monasteries) were particularly impactful, showcasing his contributions to the performing arts and religious reform. The meticulous depiction of his life and legacy, combined with engaging dramatic reenactments and artistic elements, earned the team a well-deserved second prize. This presentation not only highlighted the triumph of cultural and religious unity but also reinforced the values of devotion and social harmony in contemporary life.
